Course Description

This class is special Early Development Program 1B that is offered at the Tampa Bay Chinese School. It is equivalent to the pre-school level. The class continues with the study in fall semester of 2018 and focuses on developing students' basic conversational Mandarin Chinese. Students will improve their listening, speaking and reading skills through children's songs, poems, chants, stories, and role play of different everyday situations. By using flash cards, the students will be able to recognize overall 120 Chinese characters and phrases. The students will learn how to express "I have something/somebody" in Chinese. They will also learn how to order drink and food; how to say where they are from (country and city); how to tell time, date, and weekday, etc. The curriculum design will follow the world-readiness standards for learning languages and will integrate communication, culture, connection, comparison, and community into a student-centered classroom. Our goal is to help students learn meaningful Chinese in a fun way.

For EDP1B, instruction is given in English and Mandarin Chinese. The students will learn simplified Chinese characters.

Prerequisites

This course is offered to children who are from non-Mandarin Chinese speaking family and who have little or no Chinese immersion environment. However, this course is continuing the study of 2018 fall semester. For the students who did not take EDP1B in the fall semester, private lessons to make up the content of Chinese Paradise 1 are highly recommended.

The Chinese phonetic system (pinyin) will be used to aid in pronunciation. Flash cards will be used to study new characters and phrases, and extra reading materials will help students to master the new words. Digital technologies will be introduced into class and used in classroom management, student assignment and assessments, story book writing and other student activities.

Parents' Responsibility

Please understand that your child/children will be challenged, as learning a new language is not an easy task. Parents must be supportive of their child/children and monitor their progress to ensure that they are improving. Please bring your child/children to class on time and give early notice if they are going to be absent. At home, make sure the children are doing their homework and turning it in on time. If possible, provide the software and hardware support to the use of the digital technologies inside and outside of the classroom.

Students' Responsibility

Students are expected to follow all of the school's rules and be on their best behavior. During class, they must actively participate by asking and answering questions. Homework must be turned in on time and fully completed to the best of their ability.
